

## 2022 European/Field Hunt Saturday, January 29, 2022

**Enjoy a full day of upland pheasant hunting!** This hunt will start with a European style driven shoot where birds fly over head to provide a truly challenging experience, then after a quick break back at Cabin you will be paired up in groups for a traditional style field hunt where we will go after the birds that got away as well as additional birds will be put in the field. You will hunt with just your group (singles will need to be paired with other small groups) and your own dog if you choose. There will be 2 flights of 3 groups (group sizes will be 2 to 5 hunters) that will have their own private areas to hunt with just their group. A guide will go out with all groups and pointing dogs will be provided if needed.

After a day in the field sit down enjoy a steak dinner and experience the company of other AWS members and conservationists. Social Hour and Steak Dinner will start when first group of field hunters return and safely stow away guns.

After return from field hunt. there will be appetizers and social hour can begin. Day concludes with steak dinner and results.
- No guns in the club house for safety!
